

## BLUE HIGHWAY

The Blue Highway is well worth a trip. Here is youthful, trendy Umeå with the northernmost Opera House in the world and world-class music festivals. There are exciting rural entrepreneurs in both old and new fields. Lycksele, also known as Lapp-Stockholm, has one of Sweden's largest and most exciting hotels. The wilderness attracts visitors from all over the world for hunting, fishing, skiing, snowmobile driving, and kayaking. The alpine world, which has the largest nature reserve in Europe, offers world-class downhill skiing, as well as marvellous trails for cross country skiers and snowmobile drivers in the winter and hikers in the summer. Hemavan is a unique winter sport venue, which literally has an airport in the middle of the village.
