

Via Baltica in Estonia

Estonia - a world superlative!

Discover Estonia and you will see it is phenomenal. Like Alice in her Wonderland, you will find there is even more to see in Estonia than you have dreamed about. The dream world becomes real and the reality is unbelievable.

It takes no effort to grasp that rapid changes are taking place around you. Change means development, fulfilment, a process of improving. Estonia's technological sector is thriving while the past - our history and nature - has been perfectly preserved. From untouched nature to post-modern city culture, you can experience solitude and the forces of masses. Big business and handicrafts passed from generation to generation stand hand by hand. Everything fits snugly together. Estonia - positively transforming. Welcome to Estonia.

The Baltic country with a difference

If you're longing for a getaway that will give you that tingle of discovering something new and untried, something exciting and magical, you need not travel outside mainstream Europe. You need only look towards this trendy, Nordic-feeling nation of 1.4 million people. It offers you an adventure you will never forget.

In a world that can at times seem overly packaged, Estonia remains refreshingly genuine and uncontrived. Having cast off communist rule more than ten years ago, Estonia has thrown her doors back open to the world and invited visitors to come sample her charms. The country's beautiful castles, old cities, manor houses, forests, beaches and islands - as its people - speak for themselves. And they tell a moving story.

This is not only a nation with a touching, visible past; it's a nation that is as progressive and hip as it is history-filled and quaint. Its spectacular progress since restoring its independence in 1991 is epitomized by its impressive Internet infrastructure, considered one of the most advanced anywhere in the world. Even in the depths of the countryside, you're almost as likely to see a villager surfing the Internet as milking a cow.
